

# A revolutionary hatching solution for stronger, healthier poult

Over the past three years, in partnership with HatchTech, Life-Science Innovations has worked to develop the HatchCare technology of providing optimum temperature conditions, feed, fresh water and light to poult as soon as they hatch. After two years of positive results from research and trials, **Headstart Hatching** featuring **Next Nest** technology will begin operations in 2024!

## Why our Poult are Thriving

### Feed

Optimal feeding triggers growth and strength that is retained all the way to market; offering substantial feed efficiency in the process.

### Water

Poult are provided with the basic necessity of water from the moment they hatch. Our birds truly experience freedom from hunger and thirst!

### Light

Illumination inside of hatcher makes it easy for poult to find food and water.

### Air

Maintaining the perfect temperature for each embryo and hatched poult is crucial and translates to improved quality after hatching.

## What the Research Shows

**20-40%**

MORE BODY WEIGHT WHEN POULTS LEAVE THE HATCHERY

**26%**

MORE BODY WEIGHT AT 7 DAYS

**2%**

BETTER LIVABILITY TO MARKET (TOMS)

**60%**

BIGGER DIGESTIVE TRACT

**5pt.**

FEED CONVERSION IMPROVEMENT TO THE SAME WEIGHT

**OR**

**2lb.**

LESS FEED TO THE SAME WEIGHT

**0.9 lb.**

MORE BODY WEIGHT AT PROCESSING

**MORE MONEY IN YOUR POCKET AT THE END OF THE FLOCK**

# A state-of-the-art facility built on innovation

For the first time Next Nest hatched birds will be available to the turkey industry utilizing Next Nest technology out of the brand new state-of-the-art **Headstart Hatching** facility!

## Features of Headstart Hatching

**110,000**  
**sq. ft.**

HIGHLY  
AUTOMATED  
USING VISCON  
EQUIPMENT

THE FIRST TURKEY  
LIVE EMBRYO  
DETECTION  
SYSTEM WILL BE  
INSTALLED

FACILITY  
CAN SET

**45M**  
EGGS

**12** HATCHCARE  
MACHINES

UTILIZING

**Jamesway P40 (60)**

**& HatchTech Microclimbers (18)**

**PSP**  
**& MPSP**

MACHINES FROM  
NOVA-TECH  
ENGINEERING
